**CHURCHILL SCHOLARSHIPS
for Graduate Study in Engineering, Mathematics, and the Sciences**

The College has been invited to join the list of nominating institutions for the prestigious Churchill Scholarships for Graduate Study in Engineering, Mathematics, and the Sciences. The Churchill Scholarship is worth between \$44,000 and \$50,000. It covers all University and College tuition and fees at Churchill College, Cambridge (currently about \$25,000). In addition, students receive a living allowance of £10,000 if enrolled in a nine-month academic program and £12,000 if enrolled in a full-year academic program. They also receive an allowance of up to \$1,000 for travel to and from the United Kingdom. The Foundation also offers the possibility of a Special Research Grant of up to \$2,000; this grant may cover travel for presentations at international conferences, short stays at another university or institute for special research, and other activities.

We may nominate up to two candidates each year. Each candidate must be a senior who is enrolled in one of the institutions participating in the Scholarship Program competition or a student who has recently graduated from one of those institutions. Upon taking up a scholarship, a Churchill Scholar must be between the ages of 19 and 26, hold a bachelor's degree or its equivalent, and may not have attained a doctorate.

The criteria for the selection of Churchill Scholars include the following:

- Exceptional academic achievement in all disciplines, but especially in the major, as indicated by course grades (previous Scholars have had a grade point average of at least 3.7).
- A capacity to contribute to the advancement of knowledge in the sciences, engineering, or mathematics by pursuing original, creative work at an advanced level as demonstrated by awards and prizes and by letters of reference. Applicants in the sciences and engineering will show extensive laboratory experience, internships, or other related work, while applicants in mathematics will show substantial independent work or other projects.
- Scores on the Graduate Record Examinations. (Please note that the GRE Subject Test is not required.)
- Outstanding personal qualities.

William and Mary campus round applications are due by noon on Friday October 5. Candidates should complete the online [Churchill application](#)

<http://churchill.uspapplications.org/register>

print, sign, and submit one original and 5 copies of it and one official and 5 copies of all university transcripts to Lisa Grimes in the Charles Center by 12 noon on Friday, October 5.

A campus committee will review the applications and select the College's nominees.

N.B. Applicants for the Churchill Scholarship must now apply separately to the University of Cambridge *no later than October 15, 2007* (the same date as for the Gates Scholarship) and the applicant *must* list Churchill College as his or her first choice on the separate Cambridge application.
