LPI OFFERS STUDENT INTERNSHIPS!

The Lunar and Planetary Institute is offering undergraduate students with 50 semester credit hours or more the chance to experience cutting-edge research in lunar and planetary science.

Student interns will get to work one-on-one with scientists from the LPI or NASA's Johnson Space Center to conduct research on projects of current interest to the lunar and planetary science community. This 10-week program will allow students the opportunity to work with and learn from some of the best lunar and planetary scientists in the field.

Please pass this information on to any of your students who might be interested.

APPLICATION DEADLINE: January 25, 2008

For more information on the internship visit:

<http://www.lpi.usra.edu/lpiintern>.

CONTACTS:

Dr. Julie Moses
Program Manager
