

Software Engineering Intern Position

Tellus Applied Sciences, Inc. is a Williamsburg, Va. based software and systems engineering company seeking undergraduate or graduate student interns to work on web-based applications for the environmental remote sensing and education disciplines. Candidates should have a knowledge of structured software development and an ability to work in a team environment.

Preference will be given to candidates pursuing a course of study in the computer sciences, physical sciences, physics or mathematics disciplines. Experience with HTML/XHTML, CSS, web programming, PHP, and JSP is desirable. Windows or Linux experience is also helpful, as is any experience with relational database systems such as MySQL, MSSQL or Oracle.

If you have an interest in applying for one of these intern positions, please send an email with your resume and contact information to Mary Wainwright at Wainwright@tellusappliedsciences.com, or call our office at 757-220-3182.
