Dear Physics Department Chair,

The APS is looking for someone to become part of our public outreach team. If you know of a suitable candidate, we hope that you will bring this position to his or her attention. The main qualification is a strong interest in communicating physics to the public. The person must have a solid physics background, and possess excellent written and oral communication skills. He or she will have primary responsibility for \*Physics Quest\* (our major outreach program for middle school students), and will work with our Head of Public Outreach on a variety of other projects, such as \*Physics Central\*. Salary will be commensurate with educational background and experience. The position is based at APS headquarters in College Park, MD, and is available immediately, although the starting date can be flexible. More information about current and recent APS outreach programs can be obtained from [www.physicscentral.com](http://www.physicscentral.com) (click on physics projects). Starting salary will be commensurate with education and work experience. Outstanding benefits package. Interested people should send their cover letters and résumés to: Joe Ignacio, Director of Human Resources at [personnel@aps.org](mailto:personnel@aps.org). Thank you very much for any assistance you can offer.

Best regards,

Joe Ignacio  
American Physical Society
