Dear College of William & Mary Career Services & Department Faculty,

I am the director of recruitment at Southern Teachers Agency, and I write in the hope that you will share with your students information about our recruitment visit to William & Mary on October 30, 2008 (please note 10/14 resume deadline below). The Career Center has been wonderfully helpful in arranging and promoting our visit to campus; we wanted to do some additional outreach to make sure that your students are aware of this interview opportunity.

Southern Teachers Agency is a placement service for teachers, coaches, administrators, etc., in PK-12 private/independent schools around the South. Hundreds of schools list positions with STA each year so that we may help them find the best possible candidates for a wide variety of school jobs.

If you are able to forward this message to your students or post the attached flyer, then we would greatly appreciate it. If you are unable to open the attachment, it is re-printed below.

Thanks for your help and consideration.

Gigi

PS....if you do not wish to receive future correspondences, hit reply with "Remove" in the subject heading.
