SCIENTIFIC JOURNALS INTERNATIONAL

## The Scientific Journals International (SJI) invites you to join its Advisory Board

The Scientific Journals International (SJI) cordially invites you to join its Advisory Board. SJI has assembled a prestigious Editorial and Advisory Board representing scholars from Yale, Oxford, Harvard, Cambridge and hundreds of universities from around the world ([www.scientificjournals.org/editorial\\_board.htm](http://www.scientificjournals.org/editorial_board.htm)).

SJI publishes more than 100 peer-reviewed open-access journals for all disciplines. SJI maintains a rapid turnaround from submission to publication, averaging 30 to 60 days. We employ an innovative quadruple-blind review system, where the referees, authors and editors remain anonymous throughout the peer-review process.

The names of the chief editor or associate editors are not published on the Web site of SJI. Authors or reviewers cannot contact the editors to influence the review process deliberately or unintentionally. The editors are appointed by the SJI Board. The peer-review decision is reported to the author, usually within four weeks. This is possible because SJI has a growing review board with more than 3,000 active reviewers.

The volunteer Advisory Board provides advice and guidance for the ongoing development of SJI. The members receive periodic emails about the developments of various SJI journals. There are no regular responsibilities for the Advisory Board members. Occasionally, you will receive an email that requests your input on new ideas, decisions or changes in the policies, procedures and guidelines of SJI. If you feel that the issue is not in your area of interest (since SJI publishes journals for all disciplines), or if you do not have the time, you can simply disregard the message. We are always open to new ideas and suggestions for enhancing the quality and stature of our journals.

If you are interested in joining our volunteer Advisory Board, please submit the brief form located on our Web site <http://www.scientificjournals.org/wanted2.htm>. We would also appreciate it, if you kindly forward the attached *Call for Papers and Reviewers* to all chairpersons within your college. Thank you for your time and cooperation.

For more information on The Scientific Journals International, please go to our Web site at <http://www.scientificjournals.org>. The current issue for all of our journals can be found at [http://www.scientificjournals.org/current\\_issue.htm](http://www.scientificjournals.org/current_issue.htm). The submission guidelines can be found at <http://www.scientificjournals.org/submission.htm>.

SCIENTIFIC JOURNALS INTERNATIONAL

## Call for Papers and Reviewers

The Scientific Journals International (SJI) cordially invites you to join its Editorial Review Board. SJI has assembled a prestigious Editorial and Advisory Board representing scholars from Yale, Oxford, Harvard, Cambridge and hundreds of universities from around the world ([www.scientificjournals.org/editorial\\_board.htm](http://www.scientificjournals.org/editorial_board.htm)).

SJI publishes more than 100 **peer-reviewed open-access** journals for all disciplines. SJI maintains a rapid turnaround from submission to publication, averaging 30 to 60 days. We employ an innovative quadruple-blind review system, where the referees, authors and editors remain anonymous throughout the peer-review process. The names of the chief editor or associate editors are not published on the Web site of SJI. Authors or reviewers cannot contact the editors to influence the review process deliberately or unintentionally. The editors are appointed by the SJI Board. The peer-review decision is reported to the author, usually within four weeks. This is possible because SJI has a growing review board with more than 3,000 active reviewers.

If you are interested in serving on our volunteer Review Board, please submit the form located at <http://www.scientificjournals.org/wanted.htm>. If you have a colleague who may enjoy serving on our Review Board, please feel free to forward this announcement to him or her. Peer reviewers are charged with providing feedback to SJI editors about the merits of submissions in terms of quality and contribution to the field.

Reviewers are expected to write reviews in a timely, collegial, and constructive manner. Maintaining SJI as a scientific journal of the highest quality depends on reviewers with a high level of expertise and an ability to be objective, fair, and insightful in their evaluation of manuscripts.

For more information on The Scientific Journals International, please go to our Web site at <http://www.scientificjournals.org>. The current issue for all of our journals can be found at [http://www.scientificjournals.org/current\\_issue.htm](http://www.scientificjournals.org/current_issue.htm). The submission guidelines can be found at <http://www.scientificjournals.org/submission.htm>.
