

Tenure-Track Experimental Physicist – Fall 2009

Illinois Wesleyan University

The Physics Department at Illinois Wesleyan University has an open tenure-track position for an experimental physicist beginning Fall 2009. We anticipate hiring at the rank of Assistant Professor. Because we have a strong commitment to the mission of a liberal arts education, we are looking for like-minded faculty colleagues who have a deep affection for communicating the beauty of physics to our students and a desire to actively include students in their *experimental* research program. Please visit <http://www2.iwu.edu/physics/> for more information about the department.

The candidate must have a Ph.D. in physics (or a closely related field) by August 1, 2009. This person will, in addition to their research, participate in delivering a broad range of lecture and laboratory courses for the physics majors and also some of our general education courses. The candidate must be able to maintain an active experimental research program in which students can be involved.

Please arrange for three letters of recommendation to be sent, and send your application, including your curriculum vitae, a one-page statement of teaching philosophy, a brief description of planned, *experimental* research that can meaningfully engage undergraduate students at Illinois Wesleyan, and any other helpful materials to njaggi@iwu.edu and *also* to jhuff@iwu.edu, either as a PDF or Word files. Review of applications will begin on November 1, 2008 and will continue until the position is filled. *IWU is an Equal Opportunity Employer committed to a diverse workforce.*

Illinois Wesleyan is a highly selective, residential, liberal arts institution of approximately 2,100 students. Located in Bloomington-Normal (also home to Illinois State University), Illinois Wesleyan is one hour's drive west of Urbana and two hours south of Chicago. If interested in opportunities for spouse or partner, please examine <http://www2.iwu.edu/iwujobs/>.
